COVID-19 Safe Schools Framework

Safety Kit for Back to School

Class is back in session, and it's important to send your child to school with the protection they need. Be sure to check with your child's school to see what items are allowed to be brought from home. The school may have a list of their own items that are allowed.

The Back-to-School safety kit provides guidance in what to include in your child's backpack. What to include in the Safety Kit:

1. Washable backpack: Choose a backpack that is washable and has no wheels.

2. Pack a personal water bottle for your child.

3. Face mask: Pack extra face masks. The extra masks are to change out when one mask gets damp or dirty.

4. Mask holder: Pack an empty paper bag for each mask that must be washed at the end of each day.

5. Hand sanitizer: Provide your child with their own travel sized hand sanitizer that contains 60% alcohol.

6. Disinfectant wipes: Provide your child travel sized disinfectant wipes for disinfecting desk, chairs, and other shared classroom objects.
